

ALTEREGO CONSULTANCY – ENVIRONMENTAL POLICY 2016

Environmental Objectives

In recognition of the aims and concepts of Local Agenda 21 we adopt the following policies:-

- The prevention of environmental damage, both direct and in the firm's advice to its clients.
- The reduction in the use of natural resources in the office.
- The minimisation of waste and a commitment to recovery and recycling as opposed to disposal where feasible.
- The compliance with relevant legislation and regulation and advising clients on good environmental practice for site investigation and remediation works.
- The provision of training and encouragement of awareness of environmental issues to all employees to ensure that they are able to fulfil the commitments given in this policy statement.
- The firm will communicate the Environmental Policy to all employees and make freely available this policy to all clients, consultants and the general public.
- The provision of a framework for setting and reviewing objectives linked to the programmes of improvement.
- The regular review of the firm's environmental objectives to ensure that they are communicated internally and externally to reflect our continuing drive for quality and sustainable environmental improvement.
- The encouragement of the use of Environmental Good Practice by clients and consultants.
- Alterego Construction and Interiors (Consultancy) Limited's policy is to provide and maintain an environmental policy compliant with the European Standard EN ISO 14001:2004 demonstrating a commitment to environmental management throughout all stages of quantity surveying and management process.
