TO WHOM IT MAY CONCERN

Dear Sir/Madam

REFERENCE - DEREK BOLTON

It is with great delight that I am able to provide a reference for Derek. He was the Project Manager and Leader for the £1,000,000+ refurbishment of the Emergency Department at Inverclyde Royal Hospital which took place approximately one year ago now. During that time I worked very closely with Derek and always found him to be extremely effective, efficient and well organised. He was able to get things done at short notice and keep everyone on board with his vision for how things should be done.

I am sure that without Derek the project would not have progressed so smoothly and effectively as it did. I am sure that in the future Derek's qualities will be recognised and utilised on any other projects that he becomes involved with. It is only a pity now that the project is completed I am unable to work with Derek in any further capacity as it was a great pleasure when we did so.

Kind regards.

Yours sincerely
