To whom it may concern

I have had the pleasure of working with Derek since 2008 whilst he was engaged as a Senior Project Manager for NHS Greater Glasgow & Clyde. As the Design Team leader we have collaborated directly with him on numerous projects across several hospital sites throughout the region.

Derek's ability to juggle multiple projects is unlike any I have seen before and this makes a dramatic difference in the productivity level of the entire team. He brings an enthusiasm to all projects and has the ability to engage at a personal level with all members of the team from NHS Board Directors, hospital managers, end users, design team to contractors/subcontractors.

As a Senior Project Manager, Derek earns my highest respect for his skill in driving projects from inception to completion and very often to exceptionally tight timescales and budgets, delivering on all counts.

Yours sincerely,

Stephen T. Kerr
